# Designs for Learning, Model Paper / Template [Title, Subtitle]

By LEADAUTHOR & SECOND AUTHOR [If several divided by colon]Affiliation Organisation, Town, Country [If several divided place on separate lines and mark appropriate author with superscript]

This model paper contains important information about requirements, content and process of submission for the Designs for Learning Conference. It contains information about formatting requirements, but do not name font size etc., as we expect you to use this document as template. Begin with an abstract of maximum 150 words in Italic.

Keywords:  up to 5 keywords

## REQUIREMENTS [HEADING]

The maximum paper length is 5.000 words incl. spaces, references, figures, tables and pictures. Do not add any page numbers, headers or footers. The electronic proceeding of the conference is formatted on A4 paper.

Headings are capitalised and centralised on the page. Do not number your headings and do not use any further levels of headings. You can apply bold and italics in the text as appropriate, but do not use other styles. Use normal capitalisation within the text and italics for emphasis (not bold).

## Heading 2

Paragraphs are fully justified. Do not use endnotes or footnotes for the paper, but do provide references using the APA-style format. Please note, that if English is not your native language we recommend that you have your paper proofread by a fluent (preferably native). If you wish to make acknowledgements in your paper, these should appear immediately before the references at the end of the paper, using the heading: acknowledgements.

All figures, tables and pictures should be placed centred on the page, close to and following the description in the text. Figures should thus be referenced in the text and preferable preceding the figure placement and caption (see figure 1). Due to the copy edit, typesetting and press process, it may be necessary for us to shift images, but we try to keep the pictures where the authors have placed them.

Figure 1: This is an example figure and caption text

Linked diagrams and tables, inserted from other packages, cause particular problems when typesetting. PLEASE DO NOT DO THIS. Instead create an image in a format as listed above and

insert this.  For reference style guide, use the APA style manual 6th edition (Bower, Hedberg, & Kuswara, 2009; Dewey, 1916; Madigan, Johnson, & Linton, 1995; Urquhart & Fernandez, 2006).
